DETAILED ACTION

Allowable Subject Matter

Claims 1-5, 19, 20, and 24-29 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 19, 24, 27, 28, and 29 state the limitation "a defective die attach area". Examiner is persuaded by Applicant's arguments submitted 02 February 2004 which states "a die attach area is the physical support and electrical connections that allow a die to communicate with the outside world. This definition of 'die attach area' is consistent with Applicant's specification, which defines 'reject die sites' as 'substrates that are defective or non-functional'". With this Applicant-supplied definition of "die attach area", one of ordinary skill in the art would not interpret the Prior Art of US 5,723,907 (Akram) as containing a defective "die attach area". Therefore, it is deemed that this limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art.
